Sealite USA Exhibiting Regulatory Buoys at 2021 NASBLA Annual Conference

Tilton, New Hampshire, USA – September 9, 2021 – Sealite USA will be exhibiting their inland waterway solutions at the National Association of State Boating Law Administrators (NASBLA) 62nd Annual Conference. The event will take place September 26-29, 2021 at the Sheraton Pittsburgh Hotel at Station Square, Pennsylvania.

Meet the Sealite USA team at Booth #102. Jason Larrere, Sealite America's Sales Manager, will be joined by Jason Wernig, Account Manager for North America Marine, and Cathy Sonnentag, Business Development Manager for USA, State & Federal Accounts.

On display will be Sealite's small marker buoy line including:

- 5 Inch Channel Marker Buoy (SL-B576)
- 9 Inch Regulatory Buoys (SL-B980 and SL-B1060)
- Float Collar Regulatory Buoy (SL-B700)
- 18x30 Inch Barrier Float
- 18 Inch Mooring Buoy

Sealite's buoys are ideal for regulatory signage, marking hazards, and as channel markers. Each buoy is made of UV-stabilized polyethylene and rotationally-molded in one piece making them extremely durable. To complete the aids to navigation solution, solar marine lanterns can be fitted on most small buoys.
